

Crash Test Dummies, If Ya Wanna Know

I never realized how much I prized you
I never thought you'd do me just one time
And if I could again lay eyes upon on you
I know I'd make you want me one more time

The days are long, the nights are hot without you
I put your picture right beside my bed
When I run out of things for me to do to you
I do them all again inside my head

And if you wanna know what I wanna do
Just ask me, I'll show you
And if you think you know what I wanna do
Don't ask me, I'll trust you

I'll bend upon my knees to help you, baby
I wanna make it easy for you too
And when I finally get to please you, baby
You'll want to take your turn and try me too

And if you wanna know what I wanna do
Just ask me, I'll show you
And if you think you know what I wanna do
Don't ask me, I'll trust you

I watch at night, I've trained my sights right on you
and I won't let you get away next time
and when I finally get my hands upon you
I know I'll make you want me one more time

And if you wanna know what I wanna do
Just ask me, I'll show you

And if you think you know what I wanna do

Don't ask me, I'll trust you
