

Crash Test Dummies, Your Gun Won't Fire

All that shit's in the past
But it still seems to last
When you're layin' in bed
Thinkin' 'bout what you said

So don't bother tryin'
You're whole world is wired
You can set your sights
But your gun won't fire

When the cat's in the bag
It turns out there's a snag
And it's a slap in the head
When you're tossin' in bed

So don't bother tryin'
You're whole world is wired
You can set your sights
But your gun won't fire

It's a slap in the face
When you're losin' the race
Now it's all down the crapper
There's no snap in my snapper

So don't bother tryin'
You're whole world is wired
You can set your sights
But your gun won't fire
