

Crashd?et, Perfect Day

My soul is strained by the destructive emotions
I light a candle but it just wont burn
Endless days, a mass of confusion
I pass the point of no return
Ooooh I am searching for a better way
I am sick of everything youve thrown away
You are a lie! You are my pain!
And this misery theres nowhere to gain
I dont need your sympathy anymore
Oh no! No I, I rather be back on my own
Oh yeah, you know...
Its a perfect day
Why am I supposed to stay?
Perfect day
I dont like you anyway
Perfect day
I just need to break away
Its a perfect day
I dont wanna play the game
A perfect day
Cause I dont like you anyway
A perfect day
I just need to break away!
Ooooh I am searching for a better way
I am sick of everything youve thrown away
You are a lie!
You are my pain!
And this misery theres nowhere to gain
