

# Craving Theo, Push Away

You're going to want to hear this  
Simple thoughts from my head  
Little like a box of pictures  
not what they are, just what you said  
Take a look, don't decieve me  
Our time together drained the life from me  
Only thing I ask of you now  
take a step and push away  
you step on me  
you take from me  
you lean on me  
why don't you push away

you step on me  
you take from me  
you lean on me  
why don't you push away

I hope you got what you wanted  
Cost me everything I am  
Your stare burns right through me  
Timelessness was your demand

Take a look, don't decieve me  
Our time together drained the life from me  
Only thing I ask of you now  
take a step and push away

you step on me  
you take from me  
you lean on me  
why don't you push away  
you step on me  
you take from me  
you lean on me  
why don't you push away

you step on me  
you take from me  
you lean on me  
why don't you push away
