

Crazy Friendz, On Christmas Nights

Hey all you guys out there
Tonight is the night
That lets us all
Get into silence
This is christmas night

When the snow's gliding down
Everyone slows his life
Everybody around
'Cause this is a feeling so true

When the people get calm
And start dreaming inside
You know Christmas feelings
Have broken through

And this is the night
Of the wonderful moments in life
That glory, it just doesn't end
That power of Jesus Christ's strenght
And that are senses so right
Just the feelings on christmas night

Sunset had turned now to night
Christmas candles' light is shining bright
And now it begins
An evening so brightful for you and for me

And this is the night
Of the wonderful moments in life
That glory, it just doesn't end
That power of Jesus Christ's strenght
And that are senses so right
Just the feelings on christmas night

And all the streets are empty now
And all the hearts are so wide

That glory, it just doesn't end
That power of Jesus Christ's strenght
And that are the senses, that are right
For you and me

You and me, you and me, you and me

And this is the night (this is the night)
Of the wonderful moments in life (oh, in life)
That glory, it just doesn't end (oh no, it doesn't end)
That power of Jesus Christ's strenght (oh yeah)
And that are senses so right (uuh, so right)
Just the feelings on christmas night
Feelings on christmas night
