

Cream, Dance The Night Away

Gonna build myself a castle
High up in the clouds.
There'll be skies outside my window,
Lose these streets and crowds.

Dance the night away.

Will find myself an ocean;
Sail into the blue.
Live with golden swordfish;
Forget the time of you.

Dance the night away.

Dance myself to nothing;
Vanish from this place.
Gonna turn myself to shadow
So I can't see your face.

Dance the night away.
