Creation Malevolent, Dominated Resurgency

lust, lust, lust lust, lust, lust

No fear of touch In its sadistic array Anticipate the stroke Of equal pain, pain!

Bred to please, single goal achived Dominated through life Estatic release, well worth the price Enslaved birth rite Limbs twisting out their passionate embrace Blood gorging the veins, the veins

Swelling of the flesh, uncontrollable rise To suffice the urge, of their calling's entice

No fear of pain, only excitement of fear Drained and raw you scream, continue to endure

Dominated resurgency No fear of flesh No fear of domination

Restrained limbs mesh

No fear of pain, only excitement of fear Drained and raw, continue to endure Bonded on tile, collared, alive Next realm achived, orgasms cry

Dominate, dominating, dominated, dominating Dominated resurgency
