

Creature, Brigitte Bardot

Would you say no to Brigitte Bardot?
I would never!
Kids say they know Brigitte Bardot
I know her better!
Make an escape like Brigitte Bardot
Get me out of here!
Take it to the place, it's a party yo!
I know, I know...

Inside, outside, everywhere I go
Things are getting heavy and it's keeping me low
I've got to get away from the world I know
Break free, let it be, out of control

Flipside, brightside, all around
It's time to listen to my rhythm and leave this town
'Cause I want to hit a place that is off the ground
So I get into a spaceship and get up to get down

It's a quarter to three, you take me off of my feet
I finally got my release...yeah, yeah, yeah!
I'm just a slave to the beat, this is just what I need
Come on, give it to me...yeah, yeah, yeah!

We don't, we don't need no sleep at all!
Way up in my...satellite!
We don't, we don't need no sleep at all!
Way up in my...satellite!

Would you say no to Brigitte Bardot?
Are you crazy?
Kids say they know Brigitte Bardot
What do they know?
Would you get high with Brigitte Bardot?
Pass the dutchie, baby!
Roll the red carpet, rock and roll!

Inside, outside, everybody go!
Get into a spaceship made of gold
'Cause we're heading to a party where the people all know
That it's time to live it up and let the good times roll

Je m'ennuie, dance with me
Tout le monde, ensemble, allons-y
Let's be free? Oui, oui, chérie!
Won't you come and play with me?

We don't, we don't need no sleep at all!
Way up in my...satellite!
Take a step to the left, take a turn to the right
Round and round...satellite!
