

Creed, Sister

Caught up in the middle
Had no choice, had no choice
Birthright forgotten, so silent
No voice

I see you
You know who
Little sister, little sister
Now realize little sister
Overlooked little girl
Now realize little sister
Overlooked little girl

Bottled up and empty heart of mine
At loss you're forgotten
Getting back, get back
Bottled up and empty heart of mine
At loss you're forgotten
Getting back, get back
Getting back, get back (yeah)

Expectations of another
Love given to the younger
Broken father, broken brother
Emptiness feeds the hunger

I see you
You know who
Little sister, little sister
Now realize little sister
Overlooked little girl
Now realize little sister
Overlooked little girl

Bottled up and empty heart of mine
At loss you're forgotten
Getting back, get back
Bottled up and empty heart of mine
At loss you're forgotten
Getting back, get back
Get back get back (yeah)

Now realize little sister
Overlooked little girl
No direction little sister
Overlooked little girl

Change,
Change,
Change
