

Creed, Stand Here With Me

You always reached out to me and helped me believe
All those memories we share
I will cherish every one of them
Well, the truth of it is there's a right way to live
And you showed me
So now you live on in the words of a song
You're a melody

'Cause you stand here with me now(2x)

Just when fear blinded me you taught me to dream
I'll give you everything I am and still fall short of
What you've done for me
In this life that I live
I hope I can give love unselfishly
I've learned the world is bigger than me
You're my daily dose of reality

'Cause you stand here with me now(2x)

On and on we sing this song
'Cause you stand her with me

On and on we sing
On and on we sing ('Cause you stand here with me)
On and on we sing this song

'Cause you stand here with me
