

# Creeper Lagoon, Under The Tracks

There is a place  
it has a face  
and he was walking out the door.

His mother said  
she was ashamed  
cause he had no place to go.

He was afraid  
And I was fine,  
And he wanted, peace of mind.

Three times turned  
And your gone,  
and your gone  
You are free,  
You are free,  
And its a long way home.

What have we done  
Is it wrong  
Is it wrong  
Is it me, cant you see  
its a long way home.

There is a snake,  
and he will awake,  
and he'll get you off the floor.

You'll start to shake,  
your friends will sweat,  
you are high, you will forget.

She is afraid  
cause you are dying,  
But you have got your peace of mind.

Three times turned  
And your go,  
and your go  
You are free,  
You are free,  
And its a long way home

What have we done  
Is it wrong  
Is it wrong  
Is it me, cant you see  
its a long way home

And i won't make your dreams come true,  
Its all you,  
you got to change your lonely ways,  
To make it through

You found a place  
In outer space,  
were you don't hurt anymore

Your lovely hand  
has slipped away,  
And there is nothing left to say

And we were born

of yellow sand  
There is no plan  
there is no end.

Three times turned  
And you go,  
and you go  
You are free,  
You are free,  
And its a long way home

All night long  
I was wrong  
I was wrong  
It was me, cant you see  
its a long way home

It took a million lives to see her smile  
Don't touch, it's too much  
To break it and shell send you home  
Afraid of love  
Afraid you might get hurt.  
So good luck,  
Don't get stuck,  
Turn around before you can go back.
