

Creepmime, God Thoughts

Generations

A nuclear family

Centres of small worlds which itch for attraction

In stillness of spin

Energy

Potential for creation

Interactions

Merry go round hierarchy

Forces of nature in motion for aeons

Invalid or potent

Potency

Empowered and charged

We savour the flavours of

Strangeness, beauty, and charm

And we're sensing the truth

But our questions stay unanswered

And the thought of god still elude us

Thoughts of god. Gods thoughts
