

# Crematory, The Game

Your life definded by many lies  
You dwell in your own words  
Distant from all that's real  
Gaze into the mirror  
And behold the Face of a player

A game of life - the game of life  
A game with your life - the game  
A game of life - the game of life  
A game with your life - the game of life

In some situations once so common  
And then disappointed stabbed those  
That once aided yuo in the back  
Seeking truth in a glass

A game of life - the game of life  
A game with your life - the game  
A game of life - the game of life  
A game with your life - the game of life

Aggressive and disappointed  
You roam through life  
Tossing away  
Your whole future for a  
Small illusion in your head

A game of life - the game of life  
A game with your life - the game  
A game of life - the game of life  
A game with your life - the game of life
