

# Crimson Glory, Starchamber

Deep blue in ultraviolet  
I'm the pilot of these stars  
My world is in slow motion  
Frozen ocean rain of fire  
We make love  
And as we do it's strange and violent  
I feel you  
Coming through in waves of ultraviolet  
Unlock the door to your mind  
Let's see how high you can fly  
Come on, come on I'll take you all  
I am the pilot of the Starchamber  
You burn as I explore you  
Deep within you waves of fire  
You dream but I'm the master  
Flying faster breathing fire  
We make love  
And as we do the sky is starlit  
I feel you  
And as I do your ultraviolet  
Unlock the door to your mind  
Let's see how high you can fly  
Come on, come on I'll take you all  
I am the pilot of the stars  
We make love  
And when we do it's strange and violent  
I feel you  
And as I do your ultraviolet  
Unlock the door to your mind  
Let's see how high you can fly  
Come on, come on I'll take you all  
I am the pilot of the stars  
Close your eyes and come inside  
Let's see how high we can fly  
Come on, come on I'll show you all  
I am the pilot of the Starchamber
