

Criss Angel, Die For Me

Twenty one years of my life to go
Have I lost myself to someone else?
Truth, lie, to live or die
Makes no difference if you're never fuckin try

I know I'd die for you
(if you want me to)
Breath of my sorrow
(if you want me to)
I know I'd die for you
(if you want me to)
Breed for tomorrow
(if you want me to)

Will you die for me
But will you die for me?

But see me standing so fucking cool
Wish you could be like me, a fool
Truth, lie, to live or die
Makes no difference if you're never gonna fuckin try

I know I'd die for you
(if you want me to)
Breath of my sorrow
(if you want me to)
I know I'd die for you
(if you want me to)
Breed for tomorrow
(if you want me to)

But will you die for me?
But will you die for me?

I want you to...
I want you to...
I want you to...
I want you...
