

Crooked I Ft. Akon, Dream Big

See I remember I was just a loner
Look at me
I dream, you dream, we all dream, big dreams
I dream, you dream, we all dream, big dreams
I'm on top permanently
But I stay in the streets
And I won't stop bringing the heat
It's my dream
Say it's my dream
i had a dream i would rise to the top
you haters like it or not
whose number one i got my eyes on your spot
the westcoast treat me like i was pac
now all i need is the whole world to bang crooked i on your block
im out the hood if you couldnt tell
ive been stabbed shot at and put in jail
ive been homeless in places you wouldnt dwell
feel these words as if they were put in brail
i did not lose cuz i knew that i couldnt fail
now on this track me and akon are cell mates
my 16s so fly i call them jail bait
now ima take us to the t.o.p.
put this on g.o.d.
homie this c.o.b.
See I remember I was just a loner
Hangin' on the corner
Take a look at me now
Big bossin'
Steady stackin' chips
Never thought that I would see that shit
Now I'm on top permanently
But I stay in the streets
And I won't stop bringing the heat
It's my dream
Say it's my dream
late nights on the corner crooked had him a dream
to drive a maroon 5 call him adam levine
never miss managed the green
cuz thats vanishing cream
i grind all night and my man a machine
i dream big like i was kareem bigs
in my dreams all i see is whips and mean cribs
love my momma cuz look what she did
on her knees like please god can you help me feed these kids
to my deadbeat father crooked's ya child
you didnt raise me your crazy look at me now
its like im solar everyday your sun gon come up
if money talks my pockets wont shut up
gotta work hard just to reach what you desire
if your like me than im preaching to the choir
ey man in my region im messiah
eastsider im the reason long beach is on fire

See I remember I was just a loner
Hangin' on the corner
Take a look at me now(Look at me)
Big bossin'
Steady stackin' chips
Never thought that I would see that shit

But I stay in the streets
And I won't stop bringing the heat
It's my dream(You know it's my dream)
Say it's my dream(Yes believe it's my dream)
