

Crooked X, Fade

Come on try to change me
And turn me into you
Just go ahead and blame me
For somethin I didn't do

Don't wanna hear no more
Just tryin to make it through the day
Not fade away

I got to find some shelter
From all this helter-skelter
A place where no one else can go...

Where everything that hurts just seems to fade away
Fade away from me
And everything I am gets lost when I escape
Fade away from me

Gone sometimes for weeks
Time slips by and everything goes back to yesterday
Back to yesterday

Don't wanna hear no more
Just tryin to make it through the night
Through this life

I got to find some shelter
From all this helter-skelter
A place where no one else can go...

Where everything that hurts just seems to fade away
Fade away from me
And everything I am gets lost when I escape
Fade away from me
