## Crosby, Stills & Nash, Dark Star

Forgive me if my fantasies might seem a little shopworn I'm sure you've heard it all before I wonder what's the right form Love songs written for you it's been going down for years But to sing what's in my heart seems more honest than the tears

I am curious
Don't want to hurry us
I'm intrigued with us
Ain't this song a bust
I don't care dark star

I met you several years ago The times they were so strange but I had a feeling You looked into my eyes just once An instant flashing by that we were stealing

Another time you felt so bad And I wasn't any help at all as I recall We didn't know quite what to do so we left the wanting be Still there for me and you

Dark star I see you in the morning
Dark star a' sleeping next to me
Dark star let the memory of the evening
Be the first thing that you think of
When you open up your smile and see me dark star

It's easy to be with you Even with the storms that rage beneath your search for peace We must make some time together Take the kids and find a world that's ours to keep

Now you've got me dreaming girl It's been so long that I thought that I'd forgotten how My heart is once again my soul We touched we did you know we did no more teasing now

Dark star I see you in the morning
Dark star a' sleeping next to me
Dark star let the memory of the evening
Be the first thing that you think of
When you open up your smile and see me dark star

Dark star I see you in the morning
Dark star a' sleeping next to me
Dark star let the memory of the evening
Be the first thing that you think of
When you open up your smile and see me dark star

Let the memory of the evening Be the first thing that you think of When you open up your smile and see me dark star
