

# Cross Canadian Ragweed, Nowhere, Texas

World on your shoulders  
Lot on your brain  
Enough to drive a girl insane  
Well I been thinkin bout maybe headin' southbound  
Wonder if you'd do the same

Chorus:

Why don't you roll with me baby down to Nowhere, Texas  
I got nothin but time  
Jump in the cab of my 70 Chevy  
Leave Oklahoma far behind

My good friend told me once Texas is big enough  
That a man could get lost  
Roll down that window  
Open that glove box  
Give that road map a toss

Chorus

Dallas to Austin  
Please come to Boston  
Cause I been playin all night long  
Turn off that radio  
I'm gonna sing to you sweetly  
the words to your favorite song

Chorus

Well we'll keep on drivin till we hit that ocean  
We'll get there by the break of day  
Maybe I should warn you I never could stay sober  
When I'm sittin on that Corpus Christi Bay

Chorus 2X
