

Cross Canadian Ragweed, Record Exec

Well you're egg-shell walking
I'm talking with you honestly
Let's keep this thing rockin'
Let it be what it's gonna be
We don't need a cheaper version
It sounds like perversion
To tell you the truth
I ain't sleeping with the enemy
It ain't me

Got your finger in the door letting everybody know
That you made your stand
No time for change
No time to rearrange for the radio man
We don't need a cheaper version
It sounds like perversion
Open your mind and see what I want you to see

chorus:
What do you want from me?
Big talkin' man
I didn't build it all just to watch it fall into your hands
What do you want from me?
Big talkin' man

You want to put your brand on every little plan
And never follow through
My foot is down this time around
I'm gonna do what it is I do

repeat chorus
