Crossbreed, Breathe

my last chance at sex was simple enough where i could breathe why can't everything just be a certain way to let me see common sense would tell me that the cancer's eating right through me failed tests would tell me that my life's in jeopardy

```
so why can't i breathe
```

my last chance at life was spent trying to burn the world with you i guess it's easier with three people trying to kill me

so why can't i breathe
why why can't i breathe

so i can breathe again so i can breathe again so i can breathe again so why can't i breathe just breathe

fallen down so low it burns me it's time to change the scene faith is one way to relieve me you built this up so help me breathe

so i can breathe again so i can breathe again so i can breathe again so why can't i breathe just breathe just breathe just breathe just breathe just breathe why can't i breathe one more time

paralyzed i can't breathe paralyzed i can't breathe paralyzed i can't breathe i can't breathe

why can't i just breathe (why can't i breathe?) just breathe (why can't i breathe?)

just breathe (why can't i breathe?) just breathe (why can't i breathe?) just breathe (why can't i breathe?) just breathe (why can't i breathe?) just breathe (why can't i breathe?) just breathe (why can't i breathe?) why can't i breathe? (just breathe) why can't i breathe one more time?
