

Crossbreed, Stem

There's a search for you you were whisked away
pissing off fathers that you paid
he waived the cross it flew in the wind
now he's looking looking looking away now

Feel the loss - of energy
Feel the loss - of energy
Feel the loss - of energy
Feel it till you hear the devil call your name

Chorus: I feel the same you'll feel the same
the ripping of your skin will make you run away
I feel the same you'll feel the same
till you hear the devil call your name

Now he searched for god and he found the way
but the road just burned away
the lights go dim and your so-called god
is looking looking looking away now

Feel the loss - of energy
Feel the loss - of energy
Feel the loss - of energy
Feel it till you hear the devil call your name

Chorus

the devil call your name (4x)

Are you still alive?
I'm still alive you just can't hear me (4x)

I feel the same, you feel the same (3x)
till you hear the devil call your name

the devil call your name (4x)
