

Crossfade, Invincible

I memorized all the words for you
But if you only knew
How much that's just not like me
I wait up late every night
Just to hear your voice
But you don't know that's nothing like me

You know I wonder how you already figured out
All these things that I try to hide
All this time i've been hoping you don't find out
All these things that I hide on the inside

I can't be held responsible
This is all so new to me
Just when I think I'm invincible
You come and happen to me

I want to make sure everything is perfect for you
If you only knew
That's not like me to follow through
Maybe even give up all these dead end dreams
Just to be with you
But you don't know that's nothing like me

Hey yeah I wonder how you already figured out
All these things that I try to hide
All this time i've been hoping you don't find out
All these things that I hide on the inside

I can't be held responsible
This is all so new to me
Just when I think I'm invincible
You come and happen to me

Now I'm waking up
I've finally had enough of this wreck of a lifetime
I never thought I'd survive it
Now I'm taking back
All I gave up for that
Leave my pain behind
Wash these stains from my life

Just when I thought all was lost
You came and made it all okay

I can't be held responsible
This is all so new to me
Just when I think I'm invincible
You come and happen to me

I canit be held responsible
This is all so new to me
Just when I think I'm invincible
You come and happen to me

I memorized all the words for you
If you only knew
How much that's just not like me
