

# Crossfade, Washing The World Away

When will this all be over  
How come this never ends  
This room keeps closing in on me  
Not much outside that I care to see  
This pain could all be over  
If I just bleed tonight  
Keep holding on to some star that stops me from

washing the world away  
Hey yeah hey yeah  
washing the world away  
hey yeah hey yeah  
washing the world away

why can't I get through today  
Feelin' blind with only me to blame  
still I find I try to hide  
Maybe in time I'll find my way

I find that no one understands me I feel so all alone  
Does anyone feel the way I do  
This pain could all be over if I just bleed tonight  
Keep holding on to some star that stops me from

washing the world away  
Hey yeah hey yeah  
washing the world away  
hey yeah hey yeah  
washing the world away

So how can I get through today  
feelin' blind with only me to blame  
still I find I try to hide  
Maybe in time I'll find my way

I don't think I'll make it through today  
Feelin' blind with only me to blame  
Still I find I try to hide  
maybe this time I'll find my way
