

Crowned King, Turn It Up (We're Going Down)

So turn it off now
It's never as it seems
You're so absurd, so old
They swear they won't do ya
Swear they won't do ya wrong
Are you with me
Said are you with me

Cause everything is coming down, (they say)
There's nowhere left for us to run, (away)
And while they keep us scared, so scared to make a sound
Let's turn it up we're going down

Break the silence
Let's not break the news
Cause breaking stories breaks the hearts of children
What's there left to do
Are you with me
Said are you with me

Cause everything is coming down, (they say)
There's nowhere left for us to run, (away)
And while they keep us scared, so scared to make a sound
Let's turn it up we're going down...

..Are you with me
Said are you with me
Cause everything is coming down, (they say)
There's nowhere left for us to run, (away)
And while they keep us scared, so scared to make a sound
Let's turn it up they're going down...
