

Crowned King, Unload

Your tears they fall on me now
And your fear is bottled by all the ammunition here
So shoot once if you think you need to stop me
I think it struck a nerve
Shoot once if I start to scare you
So stop me screaming

Something is wrong
And I don't belong here
It's taking to long
To unload the ammo
Cause something is wrong
And I don't belong here
It's taking to long
To unload the ammo

You're scared
It's all around me
Short fused and angry from all the things you see and read
So fire once if you think I'll try to harm you
It's safer with me dead
Just use your right to bare arms
To hug your kids instead

Something is wrong
And I don't belong here
It's taking to long
To unload the ammo
Cause something is wrong
And I don't belong here
It's taking to long
To unload the ammo

So fall on me
And follow me down
Down down down
So fall on me
And follow me down
Will you stop shooting when our heads hit the ground

Something is wrong
And I don't belong here
It's taking to long
To unload the ammo
Said something is wrong
And I don't belong here
It's taking to long
To unload the ammo

Something is wrong, and we don't belong here
