

# Cruachan, Is Fuair An Chro?

Medb; You said you would always be there,  
You said you would always care,  
You said you would always be there,  
You said you would always care,  
I was nadve and I was wrong,  
To you, I do not belong!

Ailill; Say what you want to say,  
You always try to have your way,  
I try to say that things in life are different.  
If this is how you feel in your heart,  
Then I don't want to be a part,  
In anything you say -I won't listen.

Your love redeems my pain,  
But I don't want to feel the shame,  
You've tried to pierce my heart,  
And you've succeeded.

We know now it could never be,  
What we once had was ecstasy,  
I can't pretend my soul is not bleeding.
