

# Crush 40, Believe In Myself

When all alone in my chair, I just go about wishin'  
I wanna be strong, yeah, really wanna be trusted  
When all alone in my bed, I just go about yearnin'  
I wanna be cool, I also wanna be like him

But that's not somethin' I can do so easily  
This is not simply my way, my style  
Gotta get a hold of my life

I wanna fly high  
So I can reach the highest o' all the heavens  
Somebody will be  
Waiting for me so I have gotta fly higher  
Gotta keep goin'  
Everything is a brand new challenge for me  
I will believe in myself  
This is the only start for me

When all alone in my sleep  
I just go about dreamin'  
I see myself there, having the same adventure

If I just follow you, I will not see the light  
Now's the time to find my way through this life  
I'm tryin' so hard to be strong

I wanna fly high  
So I can reach the highest of Oo' the heavens  
Somebody will be  
Waiting for me so I have gotta fly higher  
Gotta keep going  
Everything is a brand new challenge for me  
I will believe in myself  
This is the only start for me

(Guitar Solo)

Many friends help me out  
In return I help them  
Certain this I can do, and there's things that only I can do  
No one's alone

I wanna fly high  
So I can reach the highest of o' the heavens  
Somebody will be  
Waiting for me so I have gotta fly higher  
Gotta keep goin'  
Everything i a brand new challenge for me  
I will believe in myself  
This is the only start for me
