

# Crushead, Backlash

Boom, here we're back up on stage again  
Here comes the crushead set with the big noise attack  
We're gonna shout out loud what we're talking about  
Here comes the beat right in the dancing crowd

So people in the house we want you to spread  
Under gods command we're gonna raise the dead  
Now open your ears all you maniacs  
Get on your feet and listen to the track

3x mr. devil leave your base  
Here comes the backlash in the middle of your face

Mr. Devil live your base it's god to whom we give the praise  
We diss you we beat you we tread on your feet  
Get away with your temptation and with your greed

Mr. Devil
