

Crustation, Reverie

Cigarette smoke swirls I
Contemplate the circles of
Smoke rings that he blows
Contemplating you

Chained to his memory
Remain in this reverie
Chained to this memory
Remain in this reverie

I'm glad you're near I
Want a word in your ear a
Word without wisdom
Always meaning for you

Chained to his memory
Remain in this reverie
Chained to his memory
Remain in this reverie

Gladly I watch it
Sadly I want to
Contemplating you
Suffocating through
Always waiting for you

Chained to his memory
Remain in this reverie
Chained to his memory
Remain in this reverie

Chained to his memory
Remain in this reverie
Chained to his memory
Remain in this reverie
