

Cryo, one

I will show you now
Show you what to do
And with no hesitation
So you do
Just another one
And once again
It will soon be over
You know when

Don't think of the pain I caused you
Don't think of the things I've done
(Just) think of the silent moments
The moments
When we are one

You're my little one
I'm here for you
I know that you trust me
Yes you do
There's no return
No turning back
It's our journey together
Right on track
