

# Crystal Bernard, If You Have Love

Friends, I've had a few  
Lovers too, they come and go  
I've wasted time chasing dreams  
Aquiring things, too young to know

That if you have heart  
You'll find gold  
If you have strength  
You'll have control  
If you have faith  
You'll stand tall  
But if you have love  
You have it all

I've had a taste of sweet success  
It's good at best if you're not alone  
I came so close to a dream come true  
When I held you I should have known

That if you have heart  
You'll find gold  
If you have strength  
You'll have control  
If you have faith  
You'll stand tall  
But if you have love  
You have it all

If you have heart  
You'll find gold  
If you have strength  
You'll have control  
If you have faith  
You'll stand tall  
But if you have love  
You have it all

Oh, if you have love  
You have it all
