

# Crystal Bernard, Something To Go On

(Laurie Webb/Del Harley)

Didn't ask you to love me  
So why did you love me  
You said that you loved me  
Cause I didn't need it if you didn't mean it  
You didn't either  
I took a chance fell in love  
Well that's my fault  
Well it takes two to win or lose  
Come on just tell me what to do

Give me something to go on  
Or just go on and let me  
Go on without you  
Just give me something to go on

Didn't ask you to need me  
If you needed me  
Well you needed me  
I'm only asking for honesty  
Honestly  
If you're afraid to fall in love  
I'm not your enemy  
You're confused just to tell the truth  
Come on baby just talk to me
