&lt;/lyrics&gt;

Listen to my heart beat now  
I can't be stopped by anyone

Like a balloon, the feelings that I never had before  
are somehow light & I don't understand them  
Yes, I'm falling in love

everytime I need you, your voice, your eyes are cute  
I always just think of you,  
all right this love can be never stopped

\* Listen to my heart beat now  
I'm smiling while singing the words you love  
Listen to your heart beat now  
We're always having fun to the sun comes up

You're sighing, but  
I'm already sighing [too]  
Boring things that drag on just bores me,  
it's wasting our time

\*\* If we're together,  
even our smiles are doubled  
When your [mood] comes around & we exchange kisses,  
all right we can have a good time

\*\*\* Listen to my heart beat now  
When it's sunny, we hold hands & go walking  
Listen to your heart beat now  
We can definitely overcome anything
