I'm not alone x4

Even on the sleepless nights, it seems that I fall in love  
thinkin' about you over & over; it won't stop  
I got up early & even on the hill, from now on  
I will hold your outstretched hand

And I am remembering  
the exciting feelings  
So now our meeting suddenly changed my world

\* I want to say (I'm not alone) if we're together (I'm not alone)  
No matter what sky it is (I'm not alone) it's dazzling up high  
Because I love you (I'm not alone) only with that (I'm not alone)  
Even when I'm alone (I'm not alone) I feel that I'm in your arms

The weekend we arranged to meet on; my special boy with black hair  
(my heart beats for you)  
Finding you from far away no matter what kind of crowd  
It's you (with a simple) Must be you (smile)  
I want to treasure the person waving his hand

Cuz I am remembering  
the loving feeling  
Tell me what I can do for your love

\*\* I believe (I'm not alone) if we're together (I'm not alone)  
No matter what tomorrow is like (I'm not alone) I won't be afraid  
I love you so (I'm not alone) only with that (I'm not alone)  
When I'm alone (I'm not alone) I feel that I'm in your arms

Hurting eachother is just a memory  
(Now I know it was just puppy love)  
I had lost being myself one day  
(Don't wanna be in love...)  
But, cause of you, I can recover  
You taught me how I'm not alone
