

# Crystal Kay, Love of a Lifetime

Something about yesterday night  
It keeps replying over, over and over oh, wow  
You are the sweetest wine  
I'm just a cup running over and over again

Because you've got that something  
Something that's just like me  
I can't put my finger on it  
This chemistry we agree

\* We've got the love of a lifetime  
The moon and the stars are rolling light  
We've got the thing and it's all right  
It's more than love, it's more than love

You don't have to worry 'bout me  
Cause I've got something this precious  
Precious won't lose it no, no  
You're the mystery, page after page  
Just gets better as we go along

Because we've got that something something  
That sweeter than words  
Least my eyes haven't seen  
No, my ears haven't heard  
What I needed all of my life  
Has finally come to me and it's all mine

\* repeat
