==Translations==
&lt;lyrics&gt;
I'm tryin' to tell you what's up...

I'm kinda sad
Chillin' alone all night long
Even lately, there is nothing
As expected
I've been feelin' down

* You said that I was pretty selfish
and that I wasn't interested
Even on the last day that you broached the subject,
I could deal with it perfectly

** But I'm missin' missin' missin' U baby
I remember [you]
I even hold back my tears
Feelin' U
Yes, missin' missin' missin' U baby
Even I didn't realize my own true feelings

I'm tryin' to tell you what's up...

I won't put it into words
Thinking alone all night long
I'm falling into [depression] considerably
As expected
I've been feeling down

* repeat
** repeat

I'm tryin' to tell you what's up

Oh, according to scenario
Oh, will I not go on?
Oh, is it hopeless now?
As expected
I've been feeling down

\* repeat
\*\* repeat twice
