==Translation==

&lt;/lyrics&gt;

(U know this is love this is love love love  
U know this is love this is love love love...)

My deep red mules (shoes) on the floor, our impatient distance  
The darkness was thick & the moon shined to guide us

I was searching for truth of love & I found you  
So I'm going on to masturbate, unperplexed, before the hidden door

\* kiss me right now baby right now doing nice and slow  
feeling around with your fingertips is good; just for me tonite  
touch me right now baby, right now doing nice and slow  
I want to sleep softly in your arms

The candle light that goes out, the lipgloss that falls  
Your eyes are gently on mine, I sensed the sign a the middle of it

(U know this is love this is love love love  
U know this is love this is love love love...)

Tell me only the truth about you,  
(show me that) I won't be scared of the real thing  
(I'm not scared) I want to verify the truth of me  
(ready to love) & all my courage right now

No words, right now, baby nice and slow  
feeling around with your fingertips is good; just for U tonite  
Words are no good right now, baby nice and slow  
Till I'm someday sleeping in your arms

Our voices seem tangeled up, but it can feel nice for the both of us  
We have [bonds] that are tied, there should be no lies ever & ever

\* repeat

Never let go, baby; hold me forever like this, baby,while we approach the next night  
Never let go, baby; hold me forever like this, baby,while we approach the next night

kiss me right now baby right now
