

# Crystal Lewis, Father And A Friend

It's a cloudy day and I feel afraid  
I have to close my eyes  
I don't want to hurt again  
I really just need a friend  
You were there for me  
You were there to see  
When I was crying out  
Just to be close to you  
Just to be loved by you

[Chorus]  
Daddy don't you know I love you  
It takes someone to be  
A father and a friend  
I love you  
You were everything to me  
You were everything

Remember the night when you held me tight  
I told you through my tears  
I felt unwanted  
And you said you wanted  
To be there for me  
To be there to see  
My life to blossom forth  
The beauty you knew was there  
And you took the time to care

[Chorus]
