Bring me into the holy place
Jesus I want to see your face
To feel a tender spirit
Of mercy and of grace
Bring me into, into the holy place
Bring me into, into the holy place

Oh Lamb of God free my soul
To worship and adore
You are the one, the only Son
Breathe life into this one
Who seeks you now
Won't you let me know
The brightness of your throne
Your Spirit washes with fire
To purify this child

Bring me into the holy place
Jesus I want to see your face
To feel a tender spirit
Of mercy and of grace
Bring me into, into the holy place
Bring me into, into the holy place

Blood and water flowed from you
To fill me up and give me a new
Life worth living, a love worth giving
A prize worth running for
