

Culcha Candela, More Peace

War! So much injustice and so many lies
now people get together for love and unity is our only way

Everybody sing more peace
Inna die world and all around every nation all human sing more peace
People raise your voices wake up nowatime
sing again more peace
Everywhere we see the people are dying and crying for more peace
But there is nothing but love

demasiadas guerras todos los afos que han pasado
las millones de personas que han sufrido y que han muerto
yo no entiendo a los politicos que piensan
que con violencia se arregia la indiferencia
se sienten poderosos con ejercitos humanos
listos para terminar con la violencia con mis hermanos
leo a diario el diario mientras camjino por el barrio
y triste me doy ouenta que para is paz no hay mas espacio

I take a look in the paper and I wonder
hardliner politics are getting stronger
It seems like love and humanity go under
but I know soon righteousness shall overcome ya
Them can't hide them lies anymore
The world knows the reason what them really fight for
But we say no we don't accept this no more
We want no economy that is founded on war

Everybody sing more peace
Inna die world and all around every nation all human sing more peace
People raise your voices wake up nowatime
sing again more peace
Everywhere we see the people are dying and crying for more peace
But there is nothing but love

Everyday we are searching for the road to peace
What we need is only one thing and we gonna find it
One day we will see our love increase
and by loving one another mankind a reach it
There's no time for no moaning and walling
Because so many little things dem a waiting
Things of solidarity and of sharing are paving our way
We walking for freedom
More war less opportunity
We are creating chances with music and unity
One by one step by step song by song
We've been waiting too long

Everybody sing more peace
Inna die world and all around every nation all human sing more peace
People raise your voices wake up nowatime
sing again more peace
Everywhere we see the people are dying and crying for more peace
But there is nothing but love

wir wollen mehr Frieden in den Stdten mehr Frieden auf den Straen
mehr friedvolle Taten und nicht wertlose phrasen - wir sind
bereit um Opfer zu bringen um fr den Frieden zu singen
durch unsere Lieder Kriegstreiber in die Knie zu zwingen
keine Krise keine Kriege wir wollen einen stabilen Frieden
viel mehr Menschen die sich lieben ohne den Drang zu besiegen
bertrieben gesagt 'ne Welt wo jeder jeden mag
zu jeder Zeit an jedem Ort an jedem Tag

Everybody sing more peace
Inna die world and all around every nation all human sing more peace
People raise your voices wake up nowatime
sing again more peace
Everywhere we see the people are dying and crying for more peace
But there is nothing but love
