

# Culcha Candela, Revolution

sittin deh in da city - with millions of people around me  
thinkin about our so called civilized problems - erase our time and inspiration  
all people keep on forgetting to think about - what divides right from wrong  
we are conqueror - and we claim our rights back rise and shine  
and we are bon fire - we are spreadin di vibe nah commit no crime  
seh you are conqueror - and you enslave mankind for a long long time  
and you are bon fire - with your machine and gun but we don't wanna go further  
Ref:

take time for your revolution - time a di warlord almost done  
nuff a dem a fear di new generation - so we shout it again - united we strong
