

Culturd Pearls, Just to let you know

Today's just another day for me
I see now
Just like other days in my life
They seem like a breeze
Flowing over death
Creeping slowly over my body
For the last day that I'll see...
Just to let you know...
Just to let you know.
I never wanna laugh again.
Laughs I had I never shared.
Just to let you know.
I never wanna cry again
The tears I cried weren't seen in the rain
That we are in... we are in.
We are in...
Today will be my last day but
Why worry
Belief is the land.
I'm traveling to
I'll leave with a smile.
To show I don't blame you.
Creeping slowly out of my body.
There's the last day that I'll see.
Just to let you know...
Just to let you know.
I never wanna love again.
Love I gave was just a nothing.
Just to let you know.
I never wanna feel again
The feelings I had never touched anyone
The love I gave.
The love I gave was just a nothing.
Was just a nothing...
The feels I had.
The feelings I had never touched anyone.
Never touched anyone...
Deep within...
Deep within...
Deep within...
Deep within...
Deep within...
Just to let you know...
Just to let you know.
I never wanna love again.
Love I gave was just a nothing.
Just to let you know.
I never wanna cry again
The tears I cried weren't seen in the rain.
The love I gave.
The love I gave was just a nothing.
Was just a nothing...
The tears I cried...
The tears I cried weren't seen in the rain.
Weren't seen in the rain...
We are in...
We are in...
We are in...
We are in...
