

Culture Beat, Black Flowers

In the air we have a ball
From the darkness we have light
As a seed we become a plant
Through the weeds in a garden
We are
Black flowers
You started as a seed that was planted
Life on earth is what you've been granted
Now it's up to you to do
What you need to continue
Growing like a cultured pearl
Make the best of what you have
And travel down the lighted path

Sunshine on her very first day
She used to cry but now she's feeling okay
So she started walking 'cause her legs got strong
And wherever she ended and she could never go wrong
Hard times they used to have
Her mother raised them without their dad
She was so young but she's seen it all
They fought and struggled but now they stand tall
Black flowers shining bright
They're gonna make it through the night
Black flowers came so far

She'll never give up till she'll reach the top
Black flowers oh they're gonna make it

Knowledge is what we all need
That's the key to succeed
Leave those Substances alone
Those that are made and grown
Answers you'll find if you seek
Troubles and problems soon get weak
Priorities they must be straight
Bloom black flowers
Control your fate
Said I'll never gonna stop
Until I'll make it
She said I'll never gonna stop
Until I'll make it

Black flowers shining bright
They're gonna make it through the night
Black flowers came so far
She'll never give up till she'll reach the top
Black flowers oh they're gonna make it
