

Culture Beat, Rendez-Vous

Chorus:

say it from the top of the Empire State
say it from the heart of the Golden Gate
that you wanna be with me
you wanna be with me
and no longer will you wait
say it from the top of the Eifel Tower
say it every minute and every hour
and baby if you will get through
you just have to ask me for a rendez-vous
I don't wanna wake up lonely
I don't wanna sleep alone
I don't wanna spend my whole life on my own

I can make your heartbeat stronger
I can make the stars shine bright
so what are you afraid of
you don't have to hide what you feel inside

Chorus

if you wanna tell me something
why don't you just come around
maybe you will lose
if you wait until the final round
I can make your day much sweeter
I can be your dreams at night
so what are you afraid of
you don't have to hide what you feel inside

Chorus
