## Culture Club, Boy, Boy (I'm The Boy)

Words that pull the trigger Fear the laughing sound

Haunts you

to consider

Love might turn you around

To face a blind emotion

Words like hey let's try

Words like thinking it over

They just don't apply

I'm the boy (you made me)

I'm the boy

I'm the boy

I'm the boy (you made me)

I'm the boy

I'm the boy

Love is...

What you make it Love the overflow

Play if you can take it some...

They just don't know

If all the rules they're making

Break somebodys heart

Whats the use in taking

Babys fall apart

I'm the boy (you made me)

I'm the boy

I'm the boy

I'm the boy (you made me)

I'm the boy

I'm the boy

You made me realise

That love is just a word

That goes unheard in a situation

Where love is nothing

And you...

Are all I can see

this boys in love with you

You're everything

I can see

This boy's in love with you

You have taken it all

Away from me
