Cultus Sanguine, Into The Field Of Screaming Sc

I'm the silence surrounding you I'm the shadow of no lighting doubt

So start this journey Come on walk with me Into the field of screaming souls (of my pain) I'm the sadness grey as tomb I'm the desert where all the hopes die

So start this journey Come on walk with me Into the field of screaming souls (of my pain) I'm the sadness grey as tomb I'm the desert where all the hopes die

In the field of screaming souls the field - the hopes - the death - she comes Into the field of screaming souls

I'm the silence surrounding you I'm the shadow of no lighting doubt So start this journey Come on walk with me Into the field Into my dreams Silence Into this silence come to me Follow my sign - follow my dreams

In the field of screaming souls In the field of dying hopes

When my time has come I'll summon my witch When the sky will fall The silence is grey In the field of screaming souls In the halls of dying hopes There's silence Eterally
