

# Cunnie Williams, Other Side Of Me

I don't wanna argue tonight  
Same old story about who's wrong or right  
Saying that change is coming hard  
Said you found someone who understands

Maybe I'm crazy sometimes  
But the thought of you keeps running through my mind  
Some say it's better this way  
But in my heart is where you stay

Could you be the other side of me  
Could you be the other side of me  
Wanna know  
Could you be the other side of me

Know we got a long road, baby  
And it seems like a heavy load, baby  
But there is one thing I hold  
Maybe I'm crazy sometimes  
But the thought of you keeps running through my mind  
Some say it's better this way  
But in my heart is where you stay

Could you be the other side of me  
Could you be the other side of me  
I wanna know  
Could you be the other side of me
