

# Current 93, Love Dance Of The Nodding Folk

is autumn the one?  
is brightness the one?  
can i interest you in death?  
can i...shall i move next door?  
would you like to touch this shadow of my s...?  
would you like to see how great the stairs are that i made to you?  
can i interest you in silence?  
can i interest you in words?  
can i interest you in decline?  
can i interest you in despair?  
can i interest you in a tattered god?  
can i interest you in that?  
yes yes before but before  
stone is the colour of your true love's eyes
