

Curve, Nothin Like This

Here you are in my mind (my mind)
I'm seein you all the time (all the time)
When you are there, you make me smile
When you're with me, I'm happy all the while
I've never felt like this before
You changed my world When you walked in my door
Your handsome face, your shining eyes
It makes me wanna be with you

~Chorus~

I've never felt nothin like this
And when you're gone I know that I'll miss you
One in a million that's what you are
I know I am lucky you're the best by far

Your loving touch, you down on your knees
And then you ask, "Will you marry me please"
It makes me think what I should do
Just give it up or spend my life with you
Now here I am walkin down the aisle
You say I'm pretty when I smile
You vow to be forever mine
We'll be together till the end of time

~Chorus x2~

I see you above me as a shining star
I feel your presence even though you're far
I cry myself to sleep at night
You've moved on to another world

I've never felt nothin like this
And now that you're gone I know that I'll miss you
One in a million that's what you are
I know I am lucky, you're the best by far
Oh yeah
